CONSENT FORM

To Our Patients:

Chiropractic examination and therapeutic procedures (including spinal adjustment, heat application, cold application, and manual muscle therapy) are considered safe and effective methods of care. Occasionally, however, complications may arise. Any procedure intended to help may have complications. While the chances of experiencing complications are small, it is the practice of this clinic to inform our patients about them. Side effects include, but are not limited to, soreness, inflammation, soft tissue injury, and temporary worsening of symptoms. More serious complications are extremely rare and their association with spinal adjustments (manipulation) is debated. These complications include injury to the arteries in the neck which may be associated with stroke and serious neurologic impairment, injuries to the spinal discs, and spinal fractures. Serious complications are estimated to be in the range of .5 – 2 incidents per million adjustments for adjustments of the neck, and 1 per million for adjustments of the low back.

I have read and understand the above statements regarding treatment side-effects. I also understand that there is no guarantee or warranty for a specific cure or result.

Please read the following carefully and initial each statement.

- _____ I understand that if I have any prosthetics or surgical implants (including breast implants, an artificial joint, etc.), I should discuss this with the chiropractic physician because it may affect care.
- _____ I understand that I play an important role in my own health care. Just as a patient can choose to discontinue care at any time, Pure Balance reserves the right to terminate a doctor-patient relationship if a patient is continually unable to comply with reasonable treatment plans.
